

External Real-Time Data New User Access Form Customer Real-Time Imbalance Tool

Equitrans Midstream Corporation has developed externally facing software and screens, granting AUTHORIZED USER access to certain real-time nomination and flow information to allow customers to proactively manage their business and reduce their imbalance exposure. The screens are intended to provide qualifying customers with access to real-time measurement data and nominations; in addition, they also have export and trending capability. This External Real-Time Data New User Access Form is subject to the User Agreement For Company's Customer Activities Website (USER AGREEMENT) between COMPANY and AUTHORIZED USER dated _____ and will provide AUTHORIZED USER with access to such information upon completion. In the event of a conflict between this Form and the USER AGREEMENT, the terms of the USER AGREEMENT will control.

Data presented in the software and screens is the best available nomination and up-to-date measurement fed into the software from field communication devices every 15 minutes (on average) and is subject to change. It is subject to communication outages and missing data and is not final for invoicing.

AUTHORIZED USERS executing this form confirm that they meet the limited release criterion* and may request access to the real-time nomination and flow information by completing and returning this form. In addition, by completing and signing this form, AUTHORIZED USER agrees to use a new URL* and two-factor authenticate to access the Measurement Portal, CAW and Real-Time Data/Imbalance Tool.

AUTHORIZED USER Company Full Legal Name: _____

Local Security Administrator Name: _____
