

RE: Mountain Valley Pipeline LLC
Notice to Customers Acquiring Capacity through Mountain Valley Pipeline’s Capacity Release Program

Dear Replacement Customer:

A Releasing Customer who wishes to release Part 284 capacity that was contracted for under a negotiated rate service agreement shall not enter into the Offer Form any special terms and conditions regarding the usage or overrun rates or retainage factors that will be charged to the Replacement Customer. In accordance with the Federal Energy Regulatory Commission’s policy and precedent, the Replacement Customer’s usage and overrun rates and retainage factors are matters solely between the Replacement Customer and Mountain Valley Pipeline. Therefore, if a Replacement Customer requests negotiated usage or overrun rates or retainage factors (even if the Replacement Shipper requests the same terms and conditions as the Releasing Shipper’s negotiated rate service agreement), such request should be made in the “No Stand-alm Bid T&C” section of the Bid Form:

Replacement Customer requests negotiated usage, overrun, and retainage rate from MVP (consistent with those in the original negotiated rate agreement or other proposed terms as proposed by the Replacement Customer).

The screenshot shows the Mountain Valley Pipeline software interface for a bid form. The window title is "MOUNTAIN VALLEY PIPELINE LLC - Quorum PTM - HELMSA [QGMP.QPTM - EQT] - [(8925) Capacity Release Bid]". The interface includes a menu bar (System, Edit, View, Screens, Maintenance, Window, Help) and a toolbar with buttons for Links, Retrieve, Validate, Save, Submit, Withdraw, Help, and Cancel. The form fields are organized into sections: "Bid" (TSP / TSP Prop, Bid No, Offer No, Bidder Rel Term St, Bid Trk ID, Offer Trk ID, Bidder Rel Term End, Post Date/Post Time, Status, Cycle), "General" (Releaser/Releaser, Bidder/Bidder Prop, Bidder Contact, Bidder Phone, Bidder Fax, Bidder E-mail, Stand-alm Bid Desc, Releaser, Bidder, Rtn Addr, Rtn Addr Phone, Rtn Addr Fax, Rtn Addr E-mail, Assoc K, Bidder Less Qty Des, Rtn Addr/Rtn Addr, Rtn Addr, AIRR, Bid Rec Date/Bid Rec, Prearr Bid, SICR Ind, Repl SR Role Ind, IBR Ind, Mkt Based Rate Ind), and "Terms/Notes" (Terms/Notes, Terms/Notes - AMA, Terms/Notes - Storage). A red box highlights the "No Stand-alm Bid T&C" field, and a red arrow points to it from the text above.

Absent a Replacement Customer's request for negotiated usage or overrun rates or retainage factors and Mountain Valley Pipeline's acceptance thereof, maximum tariff rates will be charged. Mountain Valley Pipeline reserves the right to accept or reject, on a not unduly discriminatory basis, any proposed discounted or negotiated usage or overrun rates or retainage factors.

If you have any questions please contact your customer service representative.
